

PUBLIC ANNOUNCEMENT

CALL FOR APPLICATIONS

TECHNICAL STUDENT PROGRAM (TSP)

The Ministry of Mines and Energy (MME) is pleased to announce that applications are now being accepted for its Technical Student Program (TSP) at the Ministry.

The program provides practical field and technical experience for junior and senior undergraduate students majoring in Earth Sciences (Geology, Geophysics, Hydrogeology, GIS and Remote Sensing), Mining Engineering, and Mineral Processing at recognized and accredited universities or colleges in Liberia.

As the government institution responsible for regulating and managing Liberia's mining and energy sectors, MME is dedicated to fostering the next generation of industry professionals. This program bridges the gap between classroom instruction and real-world employment, providing invaluable hands-on experience in a professional setting.

Program Objectives:

- **Professional Experience:** Provide professional working environment and participating in policy and regulatory reforms in the energy and the minerals and mining sectors of Liberia.
- **Meaningful Learning:** Apply your academic knowledge directly to practical field and sector operations.
- **Mentorship:** Benefit from direct guidance and mentorship activities from experienced energy and mining industries professionals and experts.

- Career Inspiration: Inspire passion and solidify a career within the Earth Sciences and Mining Engineering.

Eligibility & Selection Criteria

To be considered for this competitive program, applicants must meet the following requirements:

- Academic Path: Must be currently pursuing an undergraduate degree in Earth and Engineering Sciences or Mining Engineering at an accredited and recognized university or technical college here in Liberia.
- Academic Standing: Must be a Junior or Senior student with a minimum Grade Point Average (GPA) of 3.00.
- Age Limit: Must not be more than 35 years at the time of application.
- Core Skills & Attributes:
 - o Excellent communication skills and strong problem-solving abilities.
 - o A positive, curious mindset with a strong readiness to learn.
 - o Excellent teamwork skills and a highly professional demeanor/attitude.

Vacancy Details:

- Available Slots: 10 Positions
- Target Disciplines: Earth Sciences and Mining Engineering
