Training & Support	Ongoing post-launch

*Note: The timeline is subject to change based on urgency or additional/reduced requirements.*

## Project Budget & Cost Breakdown

We have prepared a detailed and transparent cost estimate for the proposed website design, development, hosting, and training. The total project cost is estimated at **One Thousand United States Dollars (US\$2,000)**, broken down as follows:

<b>Activity</b>	<b>Description</b>	<b>Quantity</b>	<b>Unit Cost (US\$)</b>	<b>Total Cost (US\$)</b>
Website & Database Development	Database development, and integration	1	500.00	500.00
Custom Responsive UI Design	User Interface and experience design	1	120.00	120.00
Backend Development	Custom backend architecture	1	300.00	300.00
TOT Training	20 days or less of staff training	5	80.00	80.00
Deployment, Hosting & CMS development and integration	Deploy, configure the website on a secure online server with all security measure in place.		00.00	00.00

<b>Total Cost</b>	<b>2,000</b>
-------------------	--------------

Note: The organization will be responsible for the ongoing costs of website hosting and domain name registration, charged monthly or annually. we will host the site and cover all maintenance costs for the first-year **base on payments**, after which the organization will handle these responsibilities

Web hosting services charge \$20 dollars and above monthly for web hosting.

This site is suitable for the \$20 monthly hosting plan, \$240 USD every year for hosting renewal. Again we will handle both the domain name and hosting cost for the one year.

<b>Activity</b>	<b>Description</b>	<b>Quantity</b>	<b>Unit Cost (US\$)</b>	<b>Total Cost (US\$)</b>
Hosting	The Site is hosting on a dedicated platform as a service to serve the site to the public.	monthly	20.00	20.00
The total cost you will pay is approximately or less, based on discounts from web service providers (Yearly)				<b>\$300 USD</b>
